

EFC-Workshop: Insight, mechanisms and modelling in high temperature corrosion

28 – 30 October 2015 in Frankfurt am Main/Germany

Instructions for the Preparation of Posters

General Information

The posters will be presented and numbered according to the poster programme.

The posters should be mounted until Wednesday, 28 October 2015, 09:30 at the latest and should be removed at the end of the conference, on Friday afternoon, 30 October 2015.

The opportunities to present the posters are during the breaks and the poster sessions.

Technical Information

Each poster will be in the size of **0,85 m width** and **1,2 m height (DIN A 0)**.
The **poster number** is mounted on top of the board.

Material for attaching the posters will be supplied by the organisers. Writing or painting on the poster board is not allowed.

Preparation of the Poster:

The **author's name and address** and **the title of the paper** are to be indicated on the top section of the poster.

As a major guideline it is proposed to make the poster intelligible in itself, even in the absence of the author. It is suggested to divide the contents of each poster into **introduction, results** and **conclusions**, with a summary listing the pertinent results and conclusions.

The poster should be legible from a distance of 2-3 meters.
Therefore, the **minimum size** should be:

- 20 cm for graphs;
- 3 cm for the paper's title and the names/adresses of the authors in the heading label;
- 1,5 cm for sections headings such as introduction, results, labeling of figures and tables;
- 0,8 cm characters in height for further text.

Line spacing: 1,1 cm at minimum; 10 of such lines correspond to one figure.

Please use colours, symbols and schemes for improved clarity.

The standard size for all posters is 0.85 x 1.2 m
(DIN A 0-German Standard) vertically orientated as shown below
